

toowoomba bird club.

We are here - all sixteen of us, with the aim of doing some useful birding in the Toowoomba area and hopefully, enjoying ourselves in the process.

The inaugural meeting of the Toowoomba Bird Club was held on Monday, 6th. October, 1975 when officers as advised below were elected and the annual subscriptions was set at \$2 per family payable each 1st October.

We intend to meet for the time-being in member's homes, where a list of Toowoomba bird sightings for the month can be compiled and published as an appendix to our monthly news-sheet. From this we hope we will build up a picture of the bird movement (and residence) within our areas.

We hope we can provide an atmosphere in the club which will encourage young members to stay with us and become useful birdwatchers at the same time increasing our own knowledge of ornithology through communicating our sightings and experiences whilst assisting each other with the clarification of any doubtful sightings.

So - a club where we can exchange bird books (with ourselves and with other clubs), photos, stamps, feathers or whatever; where we can plan bird outings and camps; where members can drink cups of coffee and have a good yarn, and most importantly gather, record and publish some serious data on the ornithology of Toowoomba.

Members attending our inaugural meeting are listed below. Names of new members will be advised through our monthly News-Sheet.

- David & Kath Blackburn, 3 Cecil St., Toowoomba. (32.7340)

ALL ARE WELCOME - BRING A FRIEND

Birds listed below are those I have personally recorded within 10 km of the General Post Office since 19.6.73. This list has been accepted by the club as a base upon which to build a comprehensive Toowoomba bird list, with the addition of new birds observed in the area by at least two club members, such observations being notified in the club's monthly News-sheet. Future editions of the News-sheet will incorporate a summary of all Toowoomba bird sightings during each month.
